Green on the Inside & Out!

Giving the Knoxville Convention Center a Spring Greening

INSIDE THE CENTER

- ♻️ Energy efficient boiler–restroom paper products made from recycled paper
- ♻️ Automated paper towel & foam soap dispensers which reduce waste
- ♻️ More live plants added to the interior of the facility
- ♻️ Working with vendors to supply the center with green chemicals for cleaning
- ♻️ Changing to use more biodegradable products in the food and beverage department
- ♻️ Retrofitting lighting to use more energy efficient bulbs
- ♻️ Installing a “Plumb-it” system to kitchen drains to reduce grease trap build-up

♻️ Energy efficient window tinting to reduce cooling needs

♻️ Outdoor landscaping improved by planting more perennials which have a lower water requirement compared to annuals

- ♻️ Recycle bins located throughout the center for guest and employee use.
- ♻️ Recycling program includes aluminum and steel cans, glass, plastic and mixed paper.

♻️ In 2007, 18,342 lbs. (since opening in 2003 94,579 lbs) of un-served food has been donated to Second Harvest Food Bank.
